The **Ganci** pipe in the **Blowfish 2F** model represents a personal interpretation of the **blowfish** shape, defined by **taut lines** and **crisp angles** carved through the **knife-cutting** technique the maker mastered at the prestigious **Airenti e Lowenberger** luthier workshop. Built on a balanced **semi-bent** posture featuring a contoured, concave-rimmed bowl, it showcases a bright natural **smooth** finish in warm honey-gold tones that highlight dense vertical grain along the ridges and rich birdseye figuring across the

cheeks. Natural **bark top** textures are preserved both at the center of one cheek and at the shank end, with hand-engraved artisan signatures on the underside. A turned **Ligurian olive wood band** completes the shank, transitioning cleanly into a hand-polished black **semi-bent saddle vulcanite mouthpiece**.
