FEATURES

Made in France

The Initial lighter proudly displays its affiliation with the revolutionary model that was created by S.T. Dupont in 1941, for a special commission from the Maharaja of Patiala, who was known as "The Magnificent". This entirely modern new model has been inspired by the timeless style of its celebrated predecessor, which went on to become a reference for S.T. Dupont aficionados.

This contemporary model, inspired by the heritage of the house, pays homage to the traditional craftsmanship of S.T. Dupont. The cap, rounded corners, and the intricately worked guilloché technique seamlessly extend its lines. Understated yet authentically elegant, compact and comfortable to hold in the palm of your hand and operate, the Initial lighter embodies essential and sensual luxury at an affordable price. In white bronze, this Initial lighter reinterprets the spirit of the legendary S.T. Dupont lighters.

Associated refills: Blue
Flint: Red
