

Ser Jacopo Melolontha L B 9mm Filter Billiard Handmade Pipe

Cod. Ser Jacopo 2304

EUR 330,00 / taxfree 270,49

TECHNICAL SPECIFICATIONS

1. Length	152 mm / 5.98 inch
2. Bowl height	53 mm / 2.09 inch
3. Outside diameter	40 mm / 1.57 inch
4. Chamber diameter	21 mm / 0.83 inch
5. Chamber depth	44 mm / 1.73 inch

Weight 65.90 gram / 2.32 oz

Filter	YES
Condition	New
Country	Italy
Brand	Ser Jacopo
Model	Billiard
Finish	Smooth
Shape	Straight
Material	Briar-root
Stem	Acrylic
Ornament	Silver
Original bag	of the manufacturer
Original box	of the manufacturer

FEATURES

Hand Made in Italy

Free gift wrapping is included

Ser Jacopo Niger L Melolontha B Pipe: The Evolution of the Billiard

Crafted in the Ser Jacopo workshop in Pesaro, this pipe represents a successful synthesis of classic shape tradition and functional innovation. The model interprets the straight Billiard shape with a expertly balanced geometry, designed for the smoker seeking an object with an understated yet technically advanced design.

"Stand-Up" Design and Functionality

The defining feature of this creation is the flattened base of the bowl. This engineering choice allows the pipe to rest in a **"stand-up" position** on a flat surface, without compromising the profile line or the aesthetics of the classic shape in any way. It is a discreet solution that increases everyday practicality during smoking breaks, keeping the elegance of the original design intact.

Aesthetics and Finishes

The **Niger L Melolontha B** classification identifies a specific aesthetic treatment of the wood. The pipe features a **smooth, dark finish**, where the deep coloration does not hide the natural grain pattern of the briar.

The rigor of the shape is embellished with a refined **double silver band**:

- One band is inserted on the end part of the shank.
- The second band is integrated onto the stem.

This feature not only adds aesthetic value to the piece but also creates a visually sharp and structurally solid junction point between the two components.

Smoking Versatility: Filter Options and Adapter

To meet the varying preferences of smokers, the pipe is **set up for a 9 mm filter**.

For those who prefer a traditional smoke free of filtering elements, the piece is accompanied by a dedicated, included **adapter**. This removable insert reduces the internal diameter of the airway, allowing the pipe to be used without a filter in an optimal manner.

The stem is made of high-quality **black acrylic**, chosen for its resistance to oxidation and its ability to maintain a constant shine over time. The shaping is of the **tapered (conical)** type and features a slight **fishtail** termination.

The **bowl**, with its generous dimensions, is designed to accommodate a capacious tobacco charge. The internal chamber features a **cylindrical drilling** that tapers into a **slightly conical geometry at the bottom**.

Technical Specifications Summary

- **Manufacturer:** Ser Jacopo (Pesaro, Italy)
- **Line:** Niger L Melolontha B
- **Shape:** Straight Billiard (Stand-up)
- **Finish:** Smooth, dark coloration

- **Filter Options:** 9 mm setup (Adapter for filterless smoking included)
- **Stem Material:** Black acrylic
- **Stem Type:** Tapered, slight Fishtail
- **Hardware:** Double silver band (shank and stem)
- **Chamber Geometry:** Cylindrical with a slightly conical bottom
