Chacom Baccara 43 Pipe: The Vanguard of Aluminum and Briar Design

The **Chacom Baccara 43** is a pipe that breaks traditional molds, offering a modern, technical, and high-impact look. This interpretation of the **Bent Billiard** model stands out for its bold use of material contrasts between the sandblasted briar and the

brilliance of aluminum.

Chacom: Tradition and Innovation in Saint-Claude

Since 1825, **Chacom** has represented the pinnacle of French pipe-making. Located in Saint-Claude, the company has successfully preserved historic artisan techniques while looking toward the future with innovative series like the **Baccara**.

Aesthetics and Finish: The Baccara Series

The Baccara line is designed for the contemporary smoker seeking an industrial yet refined style:

- **Matte Black Sandblasted Finish:** A deep texture that enhances the grain of the briar, making the pipe extremely durable and pleasant to the touch.
- **Aluminum Fire Cap:** The top edge of the bowl (**rim**) is protected by an aluminum cap, which prevents accidental scorching during lighting and creates a sharp chromatic contrast with the black sandblasting.
- **Aluminum Band:** A solid aluminum ring serves as the junction between the shank and the stem, reinforcing the structure and completing the pipe's modern aesthetic.

Technical Features: Shape 43

- **Bent Billiard Model:** Chacom's Shape 43 offers a harmonious curvature that balances the pipe's weight, making it extremely comfortable for "clenching" (holding between the teeth).
- **Spacious Chamber and Bore:** The medium-sized bowl is ideal for sessions of average duration. The precision **cylindrical bore** guarantees a steady draw and optimal combustion for any blend.
- **Acrylic Stem:** Made of high-polish black acrylic—durable and resistant to oxidation—it is embellished with the iconic "**CC**" logo, the symbol of Chacom authenticity.

Why choose the Chacom Baccara 43?

The Chacom Baccara 43 is the ideal pipe for those who don't want to go unnoticed. The aluminum fire cap is not just an aesthetic element but a functional detail that protects your pipe over time, making it perfect for outdoor smoking or for beginners who wish to preserve the integrity of the rim.
