

SER JACOPO S2 A MAXIMA

Cod. Ser Jacopo 2281

EUR 250,00 / taxfree 204,92

TECHNICAL SPECIFICATIONS

1. Length	144 mm / 5.67 inch
2. Bowl height	63 mm / 2.48 inch
3. Outside diameter	41 mm / 1.61 inch
4. Chamber diameter	22 mm / 0.87 inch
5. Chamber depth	55 mm / 2.17 inch
 Weight	82.80 gram / 2.92 oz
Filter	NO
Condition	New
Country	Italy
Brand	Ser Jacopo
Model	Freehand
Finish	Sandblast
Shape	Bent
Material	Briar-root
Stem	Acrylic
Original bag	of the manufacturer
Original box	of the manufacturer

FEATURES

Hand Made in Italy

Free gift wrapping is included

Ser Jacopo S2 A Maxima Pipe - Full Bent Stand-Up Free Form

The **Ser Jacopo S2 A Maxima** is a masterclass in blending traditional Pesaro craftsmanship with contemporary design. This artisanal pipe features the **S2 A** classification, denoting superior briar quality, and the **Maxima** designation, reserved for specimens with generous dimensions and a commanding presence.

Architecture and Design: A Modern "Free Form"

*This model breaks away from traditional shapes, offering a **Full***

Bent Stand-Up free-form geometry. The design is engineered to allow the pipe to stand independently on flat surfaces without the need for a pipe rest, perfectly merging functionality with aesthetic innovation.

- **Size:** A medium-to-large structure, ideal for smokers who prefer a substantial feel and a solid grip.
- **The Bowl:** Features an extra-large chamber with precise cylindrical boring. This configuration is optimized for a slow, uniform burn, allowing for the full development of the tobacco's flavor profile.

Aesthetics and Finish: The "Flamed" Sandblast

The finish of this specimen is the result of a delicate process intended to elevate the raw material:

- **Light Sandblasting:** A technique executed with extreme sensitivity to preserve the wood's character. The process reveals a crisp **radial grain (flaming)** across the "cheeks" of the bowl, creating a texture that is unique to both touch and sight.
- **The Stem:** Crafted from high-quality black acrylic, it features a **tapered saddle bit** (smussata) that ensures excellent ergonomic comfort, reducing jaw fatigue despite the pipe's larger scale.
