

KEN DEDERICHS

Cod. Ken Dederichs 230

EUR 410,00 / taxfree 336,07

TECHNICAL SPECIFICATIONS

1. Length	135 mm / 5.31 inch
2. Bowl height	50 mm / 1.97 inch
3. Outside diameter	52 mm / 2.05 inch
4. Chamber diameter	20 mm / 0.79 inch
5. Chamber depth	36 mm / 1.42 inch

 Weight 73.50 gram / 2.59 oz

Filter	NO
Condition	New
Country	Germany
Brand	Ken Dederichs
Model	Army mount, Freehand
Finish	Sandblast, Semi Sandblasted
Shape	Half bent
Material	Briar-root
Stem	Ebonite
Original bag	of the manufacturer
Original box	Al Paschia

FEATURES

Handmade in Germany

Free gift wrapping is included

Al Paschia' exclusive dealer for Italy

Ken Dederichs Pipe - Black Sandblasted Quarter Bent Dublin with Smooth Rim

*This **quarter bent Dublin**, entirely handmade in Germany by the renowned Japanese-born pipemaker **Ken Dederichs**, stands as a superb expression of balance and precision.*

Pipemaking in Germany: A Meeting of Cultures and Rigor

Over the past few decades, the **German school of pipemaking** has undergone an extraordinary evolution, establishing itself as a global benchmark for technical precision and flawless detailing. Initially influenced by British classicism and Danish design freedom, German pipemaking developed its own distinct identity, characterized by zero-tolerance engineering in the fittings and an obsessive pursuit of internal perfection.

It is within this precise landscape that the work of Ken Dederichs fits beautifully.

Aesthetics and Contrasts: Grain and Birdseye

The true highlight of this free interpretation of the Dublin shape lies in the spectacular contrast between the different finishes applied to the briar:

- **The Fine Sandblast:** The body of the pipe, stained an elegant deep black, is enhanced by an extremely fine and detailed sandblast. Rather than masking the texture of the block, this craftsmanship beautifully highlights a **gorgeous straight grain** running evenly along the flanks of the bowl.
- **The Contrast of the Immense Rim:** The top of the bowl (rim) is intentionally wide and prominent. This area has been expertly left smooth and finished with a lighter, contrasting stain—a design choice that magnificently showcases an **extremely compact, dense, and uniform birdseye grain**.

The Hand-Crafted "Army Mount" Stem

The construction of the stem showcases the uncompromising, artisan dedication that defines Ken Dederichs' work:

- **Army Mount:** The pipe adopts an elegant Army Mount fitting—a classic, robust solution that allows the smoker to disassemble the pipe safely even while it is still warm.
- **Hand-Cut Ebonite:** The black ebonite mouthpiece has been **hand-cut and shaped with a file directly from raw rod stock**, guaranteeing a thin comfortable lip-button, exceptional palatal comfort, and an optimized internal airflow free of turbulence.

Chamber Geometry and Smoking Performance

- **Slightly Conical Bore:** The combustion chamber features a **slightly conical internal bore**.
- **Good Capacity:** In perfect proportion to the medium size of

*the model, the bowl offers a **generous volume**, making it ideal for extended, meditative smoking sessions.*

This creation by Ken Dederichs is a solid, elegant pipe packed with great personality.
