BigBen Spectrum 744 Pipe - Matte Blue Standup (9mm Filter)

Dutch Innovation: The BigBen Heritage

The **BigBen** factory represents one of the longest-standing names in the international world of pipe smoking. Historically renowned for

successfully blending traditional briar craftsmanship with a modern, bold design approach, BigBen has redefined the aesthetic of the contemporary pipe. The **Spectrum** series is the ultimate expression of this philosophy: a line where color, geometric design, and technical innovation converge to create objects that transcend the classical concept of a pipe.

Design and Features of the 744 Shape

The **744** model is a bold **standup**, designed for those who desire a pipe that does not go unnoticed. Its architecture is engineered to ensure perfect vertical stability on any flat surface, making it a discreet and refined piece of decor when not in use.

- **Finish and Color Palette:** The pipe features a sophisticated **matte blue** finish that accentuates the modern lines of the shape. The flat rim, left in its **natural state**, creates a striking chromatic contrast.
- **Technical Details:** The distinct aesthetic and constructive feature is the **double aluminum-worked band**, positioned with millimeter precision on both the shank and the stem. Beyond enhancing the design, the band provides a solid structure to the fitment.
- **The Bowl:** The bowl is **capacious**, while the combustion chamber is characterized by a **slightly conical** drilling.

Versatility and Comfort: Filter and Stem

- **Filtration System:** The pipe is prepared for a **9mm filter**.
- **Flexibility of Use:** Each piece comes with an included **adapter**, which allows the pipe's airway to be converted for a traditional smoke without a filter, ensuring maximum freedom of choice based on personal preference.
- **The Stem:** Crafted from **black ebonite**, it features the signature **fishtail** geometry, which ensures a wide distribution of the smoke flow and excellent comfort when held in the mouth.
