#### **Ser Jacopo Niger L Pipe - Chubby Apple (Full Bent)**

*Ser Jacopo: The Art of Briar Between History and Philosophy*

The **Ser Jacopo** brand was founded in **1982** in Pesaro by Giancarlo Guidi, one of the most revolutionary and influential figures in contemporary Italian pipe making. The company philosophy, summarized by the famous Latin motto "Per Aspera ad Astra" (Through hardships to the stars), reflects a constant pursuit of formal and technical perfection, starting from the natural

imperfections of raw briar.

The **Niger** classification identifies a historic line of great charm, characterized by a smooth finish with a dark, high-contrast color scheme.

*The Shape: Chubby Apple and Generous Geometries*

*This model is developed around a bold reinterpretation of the classic **Apple** shape, crafted in a **Chubby** rendition and configured as a **Full Bent** (pronounced curve).*

- **The Bowl and the Head:** The head, possessing decidedly generous dimensions, stands out for its full, spherical lines that are highly satisfying to the touch. The smooth finish is enhanced by a contrast coloration: an intense **dark brown over a black base**, meticulously designed to highlight the natural grain of the briar.
- **Shape Engineering:** Despite its massive proportions, the Full Bent curvature distributes the weight optimally over the center of gravity, reducing jaw strain and ensuring a comfortable hold.

*Technical Details and Smoking Comfort*

*From a technical standpoint, the Ser Jacopo Niger L meets the highest construction standards of the Pesaro school:*

- **The Combustion Chamber:** The bowl boasts a **good capacity**, well-suited for long, structured smokes. The internal chamber features a strictly **cylindrical** drilling.
- **The Stem:** Crafted from high-quality **black acrylic**, a material that retains its luster over time without undergoing the oxidation typical of ebonite. The profile is **slightly fishtail**, designed to sit comfortably between the lips.
