2. Bowl height	38 mm / 1.50 inch
3. Outside diameter	37 mm / 1.46 inch
4. Chamber diameter	20 mm / 0.79 inch
5. Chamber depth	31 mm / 1.22 inch
 Weight	50.00 gram / 1.76 oz

<b>Filter</b>	<b>NO</b>
Condition	New
Country	Italy
Brand	Valbruna
Model	Freehand
Finish	Smooth
Shape	Straight
Material	Briar-root
Stem	Acrylic
Original bag	of the manufacturer
Original box	Al Paschià

### FEATURES

Hand Made in Italy

Free gift wrapping is included

#### **Valbruna Pipe - Smooth Brown 2 Meduse (Freehand)**

*Valbruna by Simone Gaudenzi: The Craftsmanship of Briar*

The **Valbruna** brand is led by the talented Italian pipemaker Simone Gaudenzi. Every pipe signed by Gaudenzi is a unique piece, the result of a construction philosophy that exalts the raw material through clean lines, impeccable smoke engineering, and a profound artistic sensibility.

*The Valbruna Grading (Classification) System*

To understand the value and rarity of each creation, Simone Gaudenzi utilizes a rigorous classification (grading) system based on the finish, the quality of the briar, and the complexity of the workmanship.

Pipes are initially categorized based on the bowl's finish:

- Rusticated, sandblasted, semi-sandblasted, and semi-rusticated.
- Smooth Blue, **Smooth Brown**, and Smooth Light (where the natural, flawless smooth briar represents the absolute pinnacle of quality).

To this basic classification, premium upgrades inspired by the marine world are applied, which influence the final value of the piece: **2 Meduse**, **3 Meduse**, **4 Meduse**, up to the highest tiers named **Calypso** and **Atlantis**. Additional value elements may be determined by the presence of precious accents and ornaments in Cumberland, Galalite, or silver.

This specific piece is classified as **Smooth Brown 2 Meduse**, a grade that certifies excellent grain quality and a smooth finish with a warm, deep hue.

Design and Geometry: The Straight Freehand

The pipe is developed around a medium-sized **straight freehand** silhouette.

- **The Bowl:** Being a freehand shape, the lines follow the natural flow of the briar, offering a unique and non-standardized design while maintaining a classic, slender elegance.
- **The Stem:** Crafted with millimeter precision, it features a **tapered** (conical) line that flows into the shank and finishes with a **fishtail** profile.

Technical Features of the Bowl

- **Capacity:** The bowl has a **medium-small capacity**, optimal for short smoking sessions or for savoring tobaccos of particular complexity without overwhelming the palate.
- **Drilling:** The combustion chamber is precisely drilled, featuring a profile that becomes **slightly conical at the bottom**.

Technical Data Sheet

**Brand / Pipemaker** Valbruna (Simone Gaudenzi - Italy)
