Valbruna by Simone Gaudenzi Pipe - Sabbia 1 Jellyfish (Quarter Bent Billiard)

The creations signed by **Valbruna by Simone Gaudenzi** represent a fine expression of contemporary Italian pipe-making craftsmanship, where the study of classic shapes blends with meticulous technical research into the raw material. This model, included in the **Sabbia 1 Jellyfish** classification, offers a personal interpretation of the **quarter bent Billiard** shape.

Aesthetics and Briar Craftsmanship

The pipe stands out for its **uniform and deep sandblasting**, dyed in an **intense black** coloration that lends the piece an austere, elegant, and timeless character.

Beyond highlighting the natural grain and texture of the briar, the sandblasted finish increases the heat-exchange surface area of the medium-sized bowl, ensuring optimal heat dissipation and a firm, pleasant tactile grip.

Bowl Architecture and Technical Specifications

- **Bowl and Capacity:** The head houses a combustion chamber of **medium-to-small capacity**, featuring a standard internal diameter of **19 mm**.
- **Internal Engineering:** The bowl features a **slightly conical drilling**.
- **Stem:** Crafted from premium **black ebonite**, the traditional material preferred by purists for its softness between the teeth. The profile is **tapered** with a subtle curvature and finishes with a slight **fishtail** lip.
