Valbruna by Simone Gaudenzi Pipe – Sandblasted 1 Jellyfish: Classic Rigor and Contemporary Interpretation

*The artisanal workshop Valbruna, guided by the sensitivity of pipemaker Simone Gaudenzi, is capturing the attention of enthusiasts. This pipe, included in the **Sandblasted 1 Jellyfish** classification, represents a highly successful interpretation of a great classic, reimagined with gentle lines and formal elegance.*

The model is developed around the silhouette of a medium-sized **Quarter Bent Rhodesian**, characterized by a **slightly squat** bowl proportion.

- **Light Sandblasting:** Executed with care, the sandblasting does not alter the geometry of the shape but follows its natural grain, allowing it to emerge in a subtle, silky-to-the-touch relief.
- **Deep Black Coloring:** A deep and even dye finish.
- **The Stem and Logo:** Made of black acrylic, the standard stem features a **slightly fishtail (just hinted)** terminal shape to improve ergonomics on the lip. Standing out on the top is the charming **silver Jellyfish logo**, the distinctive signature of Simone Gaudenzi.
- **Capacious Bowl:** Despite the medium proportions and the slightly lowered line of the bowl, the combustion chamber offers a generous capacity, excellent for holding tobacco loads capable of ensuring smoking sessions of satisfying duration.
- **Combined Internal Drilling:** The bowl features a **cylindrical drilling** in the main section, which fades into a **slightly conical geometry at the bottom**.
