Radice Rind Pipe - Compact Liverpool

The artisan workshop **Radice**, based in Cucciago, showcases its technical expertise through the **Rind** line. This specific classification is distinguished by a deep, tactile rustication, meticulously crafted to offer a secure grip and optimal heat dissipation. The model featured here is a **medium-sized compact Liverpool**, a classic shape reinterpreted with a distinctive character deeply rooted in

local pipemaking tradition.

Geometry and Technical Features

From a construction standpoint, this pipe stands as a solid and technically well-executed smoking instrument. The proportions of the Liverpool shape—characterized by a long, cylindrical shank paired with a short stem—are perfectly balanced to ensure both comfort and clean lines.

- **Brand:** Radice (Entirely handmade in Cucciago, Italy)
- **Model:** Straight compact Liverpool (Medium size)
- **Finish:** Rind (Rusticated)
- **Chamber:** Medium capacity with a slightly conical drilling
- **Stem:** Standard tapered type in black acrylic

Design Details and Regional Identity

What elevates this model above standard interpretations of the Liverpool shape is the careful attention to its structural details:

- **The Base of the Bowl:** The base of the bowl features a slightly pronounced heel. This geometric detail not only adds a distinctive character and a unique silhouette to an otherwise classic shape, but it also clearly identifies the regional origin and the stylistic school of the Radice manufacture.
- **Internal Engineering:** The medium-capacity chamber is engineered with a **slightly conical drilling**, a technical solution that accommodates the natural progression of the tobacco's combustion, promoting a consistent flavor delivery.

Every Radice Rind pipe is a unique piece that seamlessly blends rigorous internal engineering with the distinct personality of Italian hand-craftsmanship.
