Ser Jacopo L1 (A) Pipe – Slender Stand-Up Billiard with Silver Band

*The Marches-based workshop **Ser Jacopo**, founded in Pesaro and renowned for a design philosophy inspired by art and geometric precision, delivers an extraordinary synthesis of elegance and functionality in this model. The pipe is cataloged under the **L1** classification, enhanced by the letter **A** which certifies the*

presence and value of the premium, hand-crafted silver band. This model offers a particularly slender, artisan reinterpretation of the classic Billiard shape.

Architecture and Geometry

The design of this piece stands out for its crisp lines and impeccable weight balance, engineered to provide maximum aesthetic appeal and smoking comfort:

- ***Brand:*** *Ser Jacopo dalla Gemma (Handmade in Pesaro, Italy)*
- ***Model:*** *Elongated and slender Billiard (Stand-up)*
- ***Classification:*** *L1 (A - with premium surcharge for the silver accent)*
- ***Shank:*** *Long, thin, and lightweight*
- ***Chamber:*** *Good capacity with standard cylindrical drilling*

Premium Design Features

What elevates this Ser Jacopo creation within the world of fine Italian craftsmanship is the meticulous attention paid to its structural details:

- ***The Stand-Up Feature:*** *The base of the bowl is shaped with a flat profile. This geometric feature allows the pipe to sit perfectly balanced on its own when placed on a flat surface, eliminating the need for a pipe stand without compromising the clean lines of the silhouette.*
- ***The Slender Shank and Silver Band:*** *The shank extends longitudinally with an intentionally narrow diameter. This engineering choice grants the pipe an extraordinary lightness and a sleek profile, beautifully adorned at the end by a understated and elegant* ***silver band****.*
- ***The Stem and the Signature "J":*** *The stem is crafted from polished black acrylic, shaped with a slender and tapered profile that finishes in a comfortable fishtail bit. Inlaid into the top of the stem is the iconic* ***silver letter J****, the historic seal of guarantee and authenticity of the Pesaro workshop.*

Technical Smoking Performance

Despite its elongated shape and the inclusion of the silver band, the pipe is surprisingly lightweight and comfortable to hold. The chamber, featuring a generous capacity, is engineered with a ***perfectly executed cylindrical drilling****.*
