Ser Jacopo S1 Maior A Pipe - Sandblasted and Rusticated Bent Apple

The Ser Jacopo S1 Maior A pipe represents a high expression of the pipe-making tradition of Pesaro, one of the historic and most renowned districts of Italian artisanal manufacturing. This specimen stands out for the complexity of its surface workmanship and the balance of its forms, making it a prominent choice for smokers who appreciate the character and uniqueness of handmade pieces.

The Maior Workmanship: A Textural Dialogue

The preeminent feature of this model lies in the Maior finish. This decorative technique, distinctive of Ser Jacopo's craftsmanship, blends together two different treatments of the briar:

- **Delicate Sandblasting:** A light pass that respects the original density of the wood, bringing out the underlying natural grain.
- **Artistic Rustication:** Applied to the body of the bowl, it creates a textural effect that evokes sculpted clay and the ripples typical of arid lands. The result is a three-dimensional texture, pleasant to the touch and visually dynamic.

Shape and Structural Details

The model is developed on a generously proportioned Bent Apple silhouette, ensuring a firm grip and excellent aesthetic comfort.

- **The Bowl:** Offers good capacity and features a regular cylindrical chamber, engineered to promote consistent combustion and a faithful aromatic rendition of the tobaccos.
- **The Stem:** Crafted from black acrylic with a saddle profile (saddle stem). This choice guarantees both the durability of the material over time, preserving it from oxidation, and excellent ergonomics on the palate.
