Shape	Half bent
Material	Briar-root
Stem	Acrylic
Ornament	Silver, Acrylic
Original bag	of the manufacturer
Original box	Al Pascià

FEATURES

Handmade in Denmark

Free gift wrapping is included

Peder Jeppesen Ida Boutique Gr. 5 Pipe - Freehand Half Bent Stand Up

*In the landscape of Danish craftsmanship, the **Peder Jeppesen** signature represents a benchmark for connoisseurs of pipes with great personality. This specific piece is graded as an **Ida Boutique Gr. 5**.*

The Connection to the Land of Lejre

Jeppesen's creations are born in **Lejre**, a small but historically rich town located on the island of Zealand, about 40 kilometers from Copenhagen. Lejre is no ordinary place: it is considered the mythological and historical cradle of Denmark's oldest royal dynasty, the Scyldings (*Skjöldungar*). Scholars associate this land with the atmosphere of the epic poem *Beowulf*, identifying it as the core inspiration for the legendary hall of Heorot. This cultural heritage of solidity, history, and storytelling is reflected in the expressive power and striking presence of the pipes crafted in this region.

Structural Features and Design

The model features a **Freehand** shape with a semicurved (**half bent**) profile.

- **Finish and Color:** The smooth surface is enhanced by a deep **contrast staining**, expertly applied to bring out the maximum three-dimensional quality of the briar's grain.
- **The Rim (Top Border):** The rim of the bowl features a **bark top** (the natural plateau/bark of the briar block left visible), a detail that imparts a rustic and organic look.
- **The Band:** The shank is adorned with a **double band** that blends the modernity of acrylic with the classic elegance of **tooled silver**.
- **Stand Up Functionality:** The base of the bowl features a flattened surface that allows the pipe to **stand up on its own** on flat surfaces, eliminating the need for a pipe rest.
- **The Stem:** Made of black acrylic, this is a short version featuring a **fishtail** shape.

Technical Specifications and Smoking Performance

From a technical standpoint, this **medium-to-large** pipe is structured to deliver a cool smoking experience:

- **Thick Walls:** The generous thickness of the briar around the tobacco chamber acts as a perfect natural thermal insulator.
- **Capacious Chamber:** The internal volume is generous, making it ideal for hosting complex tobaccos that require room to fully develop their aromatic profile.
- **Cylindrical Drilling.**

Grading Note: The **Ida** series is the line Jeppesen historically dedicated to his daughter. The **Boutique Grade 5** designation identifies top-tier pieces, characterized by inserts of noble materials such as tooled silver.

Technical Specifications Summary

Artisan / Origin Peder Jeppesen (Lejre, Denmark)

Line / Grade Ida Boutique Gr. 5

Shape Freehand Half Bent

Finish Smooth with contrast staining and Bark Top on the rim
