2.	Bowl height	53 mm / 2.09 inch
3.	Outside diameter	59 mm / 2.32 inch
4.	Chamber diameter	20 mm / 0.79 inch
5.	Chamber depth	46 mm / 1.81 inch
	Weight	106.80 gram / 3.77 oz
	Filter	**NO**
Condition		New
Country		Italy
Brand		Accademia della Pipa
Model		Freehand
Finish		Smooth
Shape		Bent
Material		Briar-root
Stem		Cumberland
Original bag		of the manufacturer
Original box		Al Pascià

FEATURES

Handmade in Italy

Free gift wrapping is included

Francesco Ganci Pipe – Natural Briar Freehand Full Bent Chubby

*The creations of **Francesco Ganci** hold a prominent place in fine Italian craftsmanship, internationally appreciated for their technical precision and extraordinary harmony of form. This pipe represents a **Freehand** interpretation—rounded, welcoming, and characterized by a distinct and charming **chubby** profile.*

The Inspiration of the Workshop Overlooking the Gulf of Tigullio

*Every pipe signed by Francesco Ganci comes to life in his workshop in **Liguria**, a place where nature directly enters the creative process. The workshop is characterized by large windows that frame a spectacular view of the **Gulf of Tigullio**, the **Portofino** promontory, and the deep blue of the Ligurian Sea. This unique environmental context infuses a profound serenity and constant inspiration, elements that translate into the fluid lines and organic naturalness that the artisan imparts to the briar.*

Briar Aesthetics and Organic Design

*The model scales to **medium-to-large** dimensions with a **full bent** profile, offering a solid yet well-balanced silhouette. The aesthetics of the bowl are entirely guided by the natural grain of the block:*

- ***Natural Finish:** The briar has been kept strictly in its natural color, allowing the wood to breathe and display its original texture.*
- ***Grain and Bird's Eye:** The interpretation of the briar block has yielded a splendid **vertical straight grain on the sides** of the bowl, which flows into a dense and compact **bird's eye** pattern on both the bottom of the pipe and the top rim.*
- ***Easy Load Rim:** The rim of the chamber is finished with an **Easy Load** shape—a subtle and precise flare that simplifies packing the tobacco and preserves the aesthetic integrity of the rim during lighting.*
- ***Chubby Geometry and Wall Thickness:** The generous walls and rounded shape ensure optimal thermal insulation, keeping the pipe pleasantly cool in the hands.*
- ***Capacious Chamber:** The tobacco chamber offers a good capacity, ideal for savoring complex blends that require a slow and evolving burn.*
- ***Slightly Conical Drilling.***
- ***Cumberland Stem:** Entirely **hand-cut from rod stock**, the stem is made of high-quality cumberland, with nuances that harmonize perfectly with the tone of the natural briar. It features a **standard tenon** and a **fishtail** lip.*

Technical Specifications Summary

***Artisan / Origin** Francesco Ganci (Liguria, Italy)*

***Shape** Freehand Full Bent (Chubby / Rounded)*

***Finish** Smooth natural (unstained)*

***Briar Grain** Straight grain on sides, compact bird's eye on rim and*

bottom

Rim (Border) *Easy Load*
