## FEATURES

### **S.T. Dupont Slim 7 Géode Malachite Lighter - Gold Finish**

*Mysterious and captivating, geodes serve as the inspiration behind an exquisite collection by S.T. Dupont. This line celebrates the beauty of the mineral world through two deep and distinctive shades: an intense blue inspired by agate, a symbol of harmony and balance, and a vibrant green inspired by malachite, a stone long associated with protection and vital energy.*

*Just like the precious stones from which it takes its name, every creation in the Géode collection reflects the excellence of fine craftsmanship and the technical precision that have defined the historic French Maison for generations.*

#### *Design and Aesthetic Features*

*The Slim 7, renowned as the world's thinnest luxury lighter, is presented in this edition with an exclusive pattern inspired by the intricate crystalline structure of malachite. The geometric veins of the mineral design are enhanced and framed by luminous gold-finish details, creating a striking interplay of color and light while emphasizing the refined character of the piece.*

#### *Technical Specifications and Functionality*

*From a technical standpoint, the Slim 7 combines high-jewelry aesthetics with advanced engineering performance:*

- **Blue Torch Flame:** Equipped with a powerful blue wind-resistant torch flame, designed to provide reliable and

consistent ignition in all weather conditions.

- **Ultra-Slim Profile:** With a thickness of only 7 mm and an exceptionally lightweight construction, it offers outstanding portability and ergonomic comfort.
- **Maintenance and Refilling:** To ensure optimal long-term performance, the use of original S.T. Dupont accessories is recommended. The compatible gas refill for this model is the **Black Gas Refill**.

**Delivery Note:** In compliance with international transportation safety regulations, the lighter is supplied without gas. Gas refills are sold separately.
