L'Anatra dalle Uova d'Oro Sandblasted Pipe – Bent Freehand

*The **L'Anatra dalle Uova d'Oro** pipe, belonging to the **Sandblasted** grading, is developed on a medium-sized **freehand** shape.*

Ergonomics and Design: The Progressive Shank

- ***The Dynamic Shank:** The pipe features a **bent shank***

***characterized by a progressive taper**, starting narrow at the bowl transition and flaring out toward the end. This conformation not only gives a strong visual momentum to the silhouette but also distributes the weight optimally, making the pipe extremely well-balanced.*

- ***The Silky Sandblasting:** The surface finish is the result of a **delicate and silky sandblasting**, executed with precision to remove the softer parts of the wood without altering the lines of the shape. The result is a finely three-dimensional texture, warm and velvety to the touch, which, combined with the geometry of the shank, makes the piece highly **ergonomic and pleasant to hold in the hand**.*

Chamber Characteristics and Wall Thickness

- ***Capacity and Drilling:** The chamber is designed with a **good capacity**, ideal for stable and extended slow-smoking sessions. The internal drilling is **cylindrical**, with a subtle taper at the bottom.*
- ***Thermal Insulation:** The thickness of the briar is carefully calibrated to ensure robustness and excellent insulation.*

Stem and Maker's Mark

- ***Material:** The stem is crafted from high-quality **black acrylic**, a technical choice that ensures long-term color stability, brilliance, and total resistance to oxidation caused by use.*
- ***The Distinctive Hallmark:** Applied on the top of the stem is the famous **raised duck head logo**, a symbol of authenticity and the artisan signature that identifies the creations of the renowned Pesaro workshop.*
