Caminetto Smooth Pipe – Straight Genovese Shape (The Mustache Pipe)

*The **Caminetto** pipe, universally known among connoisseurs as "la pipa del baffo" (the mustache pipe), represents a milestone of the great Lombard manufacturing tradition. This specific model features a refined and rare **medium-sized straight Genovese shape**. It is a piece of great interest to collectors, seamlessly blending the charm of historical lines with structural solutions for outstanding daily functionality.*

The Charm and Geometry of the Genovese Shape

The silhouette of this creation reinterprets a classic slow-smoking design:

- ***The Canted Head:*** *The body of the bowl recalls the elegant verticality of historical Cutty or Chimney shapes. The head is* ***slightly tilted forward (canted)*** *relative to the axis of the shank—a vintage geometric touch that adds dynamism to the line and optimizes the visual balance of the piece.*
- ***The Stand-Up Base:*** *The fundamental and defining feature of the Genovese shape lies in a* ***small sculpted pedestal at the base of the head****. This extension of the briar allows the pipe to stand upright on its own when placed on flat surfaces, eliminating the need for a pipe rest.*
- ***The Finish:*** *It features a* ***smooth finish****.*
- ***Capacity and Drilling:*** *The chamber guarantees a* ***good capacity****, ideal for generous packs and stable, extended smoking sessions. The internal drilling is* ***cylindrical****.*

Stem and Maker's Mark

- ***Material and Profile:*** *The stem is crafted from high-quality* ***black acrylic****, a technical choice that guarantees freedom from oxidation over time and maintains its original deep luster. It features a* ***tapered*** *(conical) line that flows smoothly into a* ***fishtail*** *bit.*
- ***The Iconic Hallmark:*** *Inlaid on the top of the stem is the unmistakable* ***stylized double-mustache logo****, the symbol of authenticity and artisan signature of the renowned Caminetto workshop.*

Note for the collector: *The Caminetto Smooth Genovese is a meditation pipe that appeals both to the experienced smoker and the lover of historical shapes. The combination of the forward-canted head and the integrated pedestal makes it an object as fascinating to display as it is practical and high-performing during daily use.*
