#### **Peder Jeppesen Danish Handmade Pipe - Ida Gr 5 Freehand Sandblasted Bent**

The Danish artisan tradition finds expression in the creations of **Peder Jeppesen**. This piece belongs to the **Ida** series, distinguished by the **Gr 5** (Group 5) grading.

This is a pipe of remarkable presence and generous proportions.

Freehand Design and Sandblasted Finish

- **Sandblasted Finish:** The body of the pipe features a distinct sandblasted texture that highlights the natural grain patterns of the briar.
- **Bark Top Accents:** The natural bark of the briar has been preserved and left in two areas: on the upper rim of the bowl and on the end of the shank, exactly where it meets the stem.

An element of unique refinement that adds a touch of exclusivity and elegance to this pipe is the application on the side of the bowl: a **small silver tobacco leaf**.

- **The Chamber:** The monumental bowl houses a highly capacious chamber, designed to ensure long-lasting smoking sessions. The internal drilling is cylindrical.
- **The Stem:** Made of marbled acrylic, the stem offers an ideal color contrast with the dark tones of the sandblasting. The choice of acrylic ensures maximum long-term stability, as it is not subject to the oxidation or yellowing typical of ebonite.
