Radice Rind 46 Pipe: The Classic Pear Shape of the Year 2026

This pipe was crafted entirely by hand in the Cucciago workshop by the Radice brothers. The model features the classic **Pear shape**, a silhouette with smooth and sinuous lines that ensures an extremely ergonomic grip and a pleasant feel in the hand.

Dating, Stamping, and Classification

This specific piece belongs to the **Rind** line and bears the **46**

stamping. The Radice brand's dating system begins in 1980 (the founding year of the workshop, identified by the digits 00); consequently, the number 46 certifies the exact year of production, which is **2026**. This detail allows collectors and enthusiasts to chronologically place the piece within the workshop's production history.

Aesthetics and Finishes

The aesthetics of this model play on a striking contrast of color and texture:

- **The Rustication:** The pipe bowl features a sharp, deep **rustication**—a manual process that not only gives the object a strong character but also offers a secure grip and optimal heat dissipation during use.
- **The Coloration:** The finish is enhanced by a **light coloration**, designed to bring brightness and highlight the ridges and details brought out by the carving.
- **The Stem:** The shank accommodates a standard, polished black acrylic stem of the **tapered (conical)** type. The choice of acrylic ensures maximum scratch resistance and prevents yellowing and oxidation over time.

Bowl Technical Specifications

- **Capacity:** The bowl proves to be **fairly capacious**, making it ideal for medium- to long-duration smoking sessions and generously accommodating various types of tobacco.
- **Internal Geometry:** The drilling of the combustion chamber is **cylindrical**.
- **The Bottom:** At the bottom, the drilling narrows into a **slightly conical** shape.
