Ser Jacopo R1 A Pipe – Semi-Sandblasted Poker with Smooth Rim and Shank and Silver Band

The **Ser Jacopo R1 A pipe** represents an excellent example of handcrafted manufacturing from Pesaro, a benchmark region for the high Italian school. Distinguished by the famous logo stamped on the briar, every Ser Jacopo creation combines a rigorous selection of

raw materials with original aesthetic insights. The **R1 A** classification identifies a specific grade within the brand's production, guaranteeing the high quality and construction standards that have made the brand famous among collectors worldwide.

Design, Finishes, and Proportions

This model reinterprets the *Poker* shape through a sophisticated play of material contrasts and a pursuit of structural lightness unusual for this specific shape.

- **Semi-Rusticated Finish:** The bowl of the pipe is characterized by a semi-rusticated workmanship that provides a pleasant tactile texture and a natural appearance. In contrast, the **rim** (the top of the bowl) and the **shank** are left smooth, highlighting the natural color of the briar.
- **Lightness and Elegance:** Unlike traditional Pokers, which are often massive, this model features a shank and stem with a **reduced diameter**. This design choice significantly lightens the overall weight of the pipe and gives it a slender, elegant line.
- **Premium Details:** The junction point between the shank and the stem is embellished with a **smooth silver band**. This metallic insert not only serves as a structural reinforcement element but also creates a point of light that enhances the entire silhouette.
- **Stem:** Made of polished black acrylic, a material that maintains its brilliance over time without suffering from oxidation. The profile is **tapered** with a **fishtail** termination, designed to offer optimal comfort on the palate.
- **Bowl and Drilling:** The bowl is spacious, suitable for holding a good amount of tobacco for long-lasting smokes. The internal drilling is **slightly conical at the bottom**.

Technical Specifications at a Glance:

Manufacturer Ser Jacopo dalla Gemma

Origin Italy (Pesaro)

Classification / Grade R1 A

Shape Poker

Finish Semi-rusticated (with smooth rim and shank)

Stem Black acrylic, *tapered* type with *fishtail* end

Inserts Smooth silver band on the shank

Bowl Drilling Slightly conical at the bottom

Technical Note: Thanks to its flat base, the Poker shape has the unique characteristic of being a "stand up" pipe, meaning it is capable of standing upright on its own without the need for a pipe rest.
