

Amorelli Penna di San Michele *** Semi-Rusticated Bent Handmade Pipe

Cod. Amorelli 370

EUR 240,00 / taxfree 196,72

TECHNICAL SPECIFICATIONS

1. Length	135 mm / 5.31 inch
2. Bowl height	41 mm / 1.61 inch
3. Outside diameter	47 mm / 1.85 inch
4. Chamber diameter	21 mm / 0.83 inch
5. Chamber depth	37 mm / 1.46 inch
 Weight	46.10 gram / 1.63 oz
Filter	NO
Condition	New
Country	Italy
Brand	Amorelli
Finish	Rusticated, Semi Rusticated
Shape	Bent
Material	Briar-root
Stem	Acrylic
Ornament	Wood
Original bag	of the manufacturer
Original box	of the manufacturer

FEATURES

Made in Italy

Free gift wrapping is included

Amorelli Penna di San Michele *** Pipe: Technical Vanguard and Artisan Fascination

In the panorama of Italian craftsmanship, the Sicilian brand Amorelli has always stood out for its ability to overturn traditional patterns, introducing stylistic and manufacturing innovations that are unique in the world. Among these, the **Penna di San Michele** (St.

Michael's Feather) is arguably the most iconic finish of the manufacture led by Salvatore "Totò" Amorelli.

This workmanship sits at the perfect meeting point between high technology and completely manual finishing. Indeed, Totò Amorelli developed an innovative process that involves using laser technology to engrave the surface of the briar with an extremely dense pattern of very thin, deep grooves, resembling the barbs of a wing feather. This is neither a classic rustication obtained with gouges nor a traditional sandblasting: the laser traces an extremely fine and geometrically regular pattern, impossible to replicate with traditional tools, which is subsequently finished by hand step by step.

To the touch, the result is surprising: the surface offers a high grip but proves to be soft and pleasant, free of the aggressive edges typical of some deep rustications. The three-star classification certifies the excellent quality of the briar and the impeccable aesthetic execution.

Shape Geometry and Texture Contrasts

The model in question develops along a sinuous **bent line of medium dimensions**:

- **The Rhomboidal Shank:** Breaking the continuity of the main workmanship, the diamond-shaped (rhomboidal) cross-section shank is left completely smooth. This stylistic choice creates a sharp, geometric visual contrast between the "Penna"-worked bowl and the stem junction.
- **The Stem:** Made of acrylic, it is shaped to follow the curvature of the pipe.

Chamber Features

- **Medium/Small Capacity:** The chamber features a contained volume, ideal for short smokes.
- **Conical Drilling:** The chamber drilling is executed with a conical profile. This geometry narrows slightly toward the bottom.

Technical Sheet

Brand Amorelli (Sicily, Italy)

Classification / Grade Penna di San Michele *** (Three Stars)

Model / Shape Medium-sized bent

Shank Structure Rhomboidal section with smooth finish

Bowl Finish Laser-engraved "Penna di San Michele" finished by hand

Chamber Capacity Medium / Small

Internal Drilling Precision conical

Stem Material High-quality acrylic

Distinctive Feature Iconic wing-feather barb texture with a soft grip

Note for the collector: Every Amorelli pipe is a unique piece marked by the famous gold insert on the stem.
