

Bisonte Pipe by Michele Pascolini: Organic Balance and Artisan Vanguard

Cod. Bisonte 043

EUR 300,00 / taxfree 245,90

TECHNICAL SPECIFICATIONS

1. Length	164 mm / 6.46 inch
2. Bowl height	44 mm / 1.73 inch
3. Outside diameter	58 mm / 2.28 inch
4. Chamber diameter	21 mm / 0.83 inch
5. Chamber depth	33 mm / 1.30 inch
 Weight	79.20 gram / 2.79 oz

Filter	NO
Condition	New
Country	Italy
Brand	Accademia della Pipa
Model	Freehand
Finish	Sandblast
Shape	Half bent
Material	Briar-root
Stem	Cumberland
Ornament	Wood
Original bag	of the manufacturer
Original box	Al Paschià

FEATURES

Handmade in Italy

Free gift wrapping is included

Bisonte Pipe by Michele Pascolini: Organic Balance and Artisan Vanguard

In the panorama of Italian craftsmanship, the creations of Michele Pascolini under the Bisonte brand stand out for a bold and rigorous sculptural approach. Pascolini is an artisan capable of closely communing with the briar, following its natural grain to bring to life

shapes that are never ordinary. The philosophy of Bisonte is founded on the pursuit of maximum technical efficiency combined with a dynamic and strongly contemporary aesthetic.

This specific model represents a medium-to-large-sized pipe that reinterprets the concept of a freehand shape in an exquisitely organic and ergonomic key. The silhouette naturally fits the smoker's hand, offering an excellent balance of weight.

Texture, Chromatic Contrasts, and Noble Woods

The aesthetic character of the pipe is defined by a refined alternation of workmanship and unusual, sophisticated material combinations:

- **The Fine Sandblasting and Light Coloring:** The bowl is finished with a fine sandblasting. This technique gently carves away the softer briar, creating a dense, sharp, and three-dimensional texture. The choice of a light and natural coloring maximizes the clarity of the structural design, allowing the original beauty of the wood to breathe.
- **The Ziricote Wood Band:** Crowning the shank is an artistic insert of absolute prestige made of Ziricote wood. Native to Central America, Ziricote is a noble and highly dense exotic wood, famous among cabinetmakers for its extraordinary natural grain that creates abstract, almost "landscape-like" patterns, alternating shades ranging from dark brown to deep black. This detail introduces a dark and sophisticated chromatic accent, breaking up the brightness of the light briar.
- **The Cumberland Stem:** The shank connects to a fishtail stem entirely hand-cut from a cumberland rod.

Chamber Architecture and Technical Performance

From a functional standpoint, the pipe is structured to offer meditative, satisfying, and stable smoking sessions:

- **The Chamber (Fornello):** It boasts a fairly capacious volume, ideal for accommodating generous packs. The walls, calibrated to the overall dimensions of the bowl, offer excellent thermal insulation.
- **The Drilling is Cylindrical.**

Technical Sheet

Brand / Artisan Bisonte by Michele Pascolini (Italy)

Model / Shape Freehand / Organic and Ergonomic Shape

Finish / Color Fine sandblasted with natural light coloring

Size Medium / Large

Chamber Capacity Fairly capacious with cylindrical drilling

Insert / Mount Artistic band in precious Ziricote wood
