

Francesco Ganci Smooth Nosewarmer Pipe with Bark Top Hand-Cut Ebonite Stem

Cod. Ganci 077

EUR 450,00 / taxfree 368,85

TECHNICAL SPECIFICATIONS

1. Length	96 mm / 3.78 inch
2. Bowl height	48 mm / 1.89 inch
3. Outside diameter	38 mm / 1.50 inch
4. Chamber diameter	19 mm / 0.75 inch
5. Chamber depth	39 mm / 1.54 inch
 Weight	24.90 gram / 0.88 oz

Filter	NO
Condition	New
Country	Italy
Brand	Accademia della Pipa
Model	Freehand, Nosewarmer
Finish	Rusticated, Semi Rusticated
Shape	Straight
Material	Briar-root
Stem	Ebonite
Ornament	Horn
Original bag	of the manufacturer
Original box	Al Pascià

FEATURES

Handmade in Italy

Free gift wrapping is included

Francesco Ganci Pipe - Smooth Canted Nosewarmer with Bark Top

This creation bears the signature of Francesco Ganci and is entirely handmade in his workshop in Liguria.

Raw Material: Romeo Briar

The pipe is shaped starting from a briar block of excellence, selected and seasoned by Mimmo Romeo at the historic Romeo Sawmills. The quality of the block emerges in the **regular straight grain**, whose vertical veins neatly embrace the entire circumference of the pipe's bowl.

Geometry, Proportions, and Finish

The model is configured as a short pipe, of the **nosewarmer** type. The silhouette is structured around an intentional and expressive geometric disproportion:

- The bowl, of medium dimensions, is tilted forward (**canted**), recalling the style of classic Dublin or Zulu shapes.
- The shank is extremely short and tapers finely toward the junction.

The body features a **smooth finish** that highlights the dense pattern of the wood, while on the upper edge of the bowl (**rim**), the artisan has chosen to preserve the natural **bark top**, keeping the raw crust of the block crowning the combustion chamber.

Specifications of Bowl, Stem, and Band

- **Bowl:** The combustion chamber is of **medium capacity**, a versatile size suitable for standard smoking sessions. The internal drilling is executed with a **conical geometry**.
- **Band:** A refined **natural horn band** is mounted on the base of the stem and, once inserted, joins in perfect structural and chromatic continuity with the end of the shank.
- **Stem:** Made of high-quality black ebonite, **entirely hand-cut from a solid rod**.
