Ser Jacopo Handcrafted Pipe - Quarter Bent Egg Shape (Grade R1)

The quarter bent Egg by Ser Jacopo (R1 grade) combines a tactile aesthetic with outstanding practical functionality.

This model is developed on a medium-sized Egg shape, characterized by soft, enveloping lines that ensure a natural and comfortable grip.

Technical Features and Construction Details

- **Craftsmanship and Finish:** The bowl features a pronounced and uniform rustication, carefully executed to highlight the texture of the briar and offer a firm, pleasant grip. In perfect contrast to the worked surface, the flat rim is left smooth, showcasing the natural grain of the wood on top of the bowl.
- **Bowl Geometry:** Despite the pipe's medium overall size, the bowl is spacious and features a regular cylindrical chamber.
- **Shape and Balance:** The curvature is quarter bent.
- **Mouthpiece:** Made of durable black acrylic, it features a saddle shape that harmoniously connects to the shank. The fishtail bit provides a stable and comfortable grip between the teeth.
