Handmade Francesco Ganci 2 F Pipe - Smooth Bent Apple with Triangular Shank

The Ganci grade 2 F pipe is a smoking work of art created by Ligurian artisan Francesco Ganci. This model stands out for its personal and fluid interpretation of classic shapes, combining the softness of the Apple shape's geometries with dynamic, contemporary lines. The result is a medium-sized, compact, and

well-balanced bent pipe.

Technical Specifications and Design

- **Design and Triangular Section:** Starting from an easy-load flared rim (designed to facilitate tobacco loading), the lines flow to connect with a majestic triangular-section shank.
- **Ebonite Stem and Olive Wood Insert:** The stem, hand-turned entirely from an ebonite rod, features a decorative olive wood disc also with a triangular section. When attached, it blends perfectly with the lines of the shank. The end is designed in a fishtail format.
- **Briar Quality and Smooth Finish:** The smooth finish highlights high-quality natural briar, characterized by uniform graining and dense bird's eye clearly visible on the lower part of the bowl and shank.
- **Good-Capacity Bowl:** Despite its overall compactness, the generously sized head houses a good-capacity combustion chamber with regular cylindrical drilling.
