Valbruna 1 Medusa Calipso Smooth Bent Pipe

Cod. Valbruna 042

EUR 320,00 / taxfree 262,30

TECHNICAL SPECIFICATIONS

1.	Length	114 mm / 4.49 inch
2.	Bowl height	68 mm / 2.68 inch
3.	Outside diameter	51 mm / 2.01 inch
4.	Chamber diameter	20 mm / 0.79 inch
5.	Chamber depth	51 mm / 2.01 inch
	Weight	76.60 gram / 2.70 oz
	Filter	**NO**
Condition		New
Country		Italy
Brand		Valbruna
Model		Freehand, Chubby
Finish		Smooth
Shape		Bent
Material		Briar-root
Stem		Acrylic
Original bag		of the manufacturer
Original box		Al Pascià

FEATURES

Hand Made in Italy

Free gift wrapping is included

Valbruna Calipso Smooth Brown 1 Jellyfish Pipe – Bent Freehand Cherrywood

After a long journey of artisanal growth, Simone Gaudenzi began crafting pipes under his own brand **Valbruna**, made entirely in his workshop in Gabicce Mare. Each piece is distinguished by the iconic stylized silver jellyfish on the top of the stem, the signature and symbol of the craftsman's production.

This model, belonging to the **Calipso Smooth Brown 1**

Jellyfish grading, is presented as a *freehand* interpretation of the classic *Cherrywood* shape. Characterized by bent lines and slightly *chubby* proportions, the pipe offers a strong visual presence and is designed with a flat base that allows it to stand perfectly balanced on its own (*stand-up*).

The smooth brown finish highlights an Italian-style cut of briar, featuring well-defined vertical grain wrapping around the bowl. The top of the rim preserves the natural plateaux (*bark top*), creating a sophisticated contrast of textures with the polished surfaces.

Technical and Construction Features

- **Craftsman:** Simone Gaudenzi (Valbruna)
- **Origin:** Gabicce Mare, Italy
- **Grade / Finish:** Calipso Smooth Brown 1 Jellyfish (with *bark top* finish)
- **Shape:** Freehand / Bent Cherrywood, *chubby*, *stand-up*
- **Size:** Medium, with a generous bowl
- **Chamber:** Large capacity, with slightly conical drilling
- **Stem:** Black acrylic cut from rod, with a stylized silver jellyfish inlay

Mechanics and Smoking Experience

From a functional standpoint, the pipe ensures a generous chamber capacity, ideal for longer smokes and for fully appreciating the complexity of tobacco blends. The slightly conical chamber drilling is engineered to ensure a steady airflow and uniform combustion.

The black acrylic stem is shaped to offer maximum comfort on the bite. A creation with a strong aesthetic personality and solid smoking engineering.
