Valbruna Italian Handcrafted Pipe – Smooth Light 2 Jellyfish (Volcano Shape)

In his workshop in Gabicce Mare, in the Marche region, craftsman Simone Gaudenzi brings Valbruna pipes to life, marked by the iconic stylized jellyfish symbol. Every piece is born from a meticulous selection of briar and entirely manual craftsmanship, designed to enhance the natural grain of the wood and offer a balanced, functional smoking tool of high aesthetic value.

This model is presented as a free and personal interpretation of the classic Volcano shape. The pipe is a half-bent model characterized by the Smooth Light finish (2 Jellyfish grade), a natural finish that highlights an even flame grain along the body and a clear bird's eye at the base. Despite the soft lines and the roundness of the base, the pipe is designed as a stand-up, able to balance independently when placed on a flat surface.

The bowl has a medium capacity, with a slightly conical drilling towards the bottom. The stem is made of black acrylic with a double saddle cut and a fishtail bit, shaped to offer a comfortable rest between the teeth. The stylized silver jellyfish logo is inlaid on the top of the stem.
