Valbruna Smooth Brown 1 Jellyfish Pipe – Freehand Acorn / Bulldog

This handcrafted Italian pipe stands out for its original and characterful lines, born from the harmonious blend of the soft curves of the Acorn shape and the decisive structure of the Bulldog. Handcrafted by master artisan Simone Gaudenzi in Gabicce Mare,

the pipe belongs to the **Smooth Brown 1 Jellyfish** classification.

Medium in size, the pipe features a fluid curvature that complements its overall form. The smooth finish, rendered in a warm brown tone, highlights a fairly uniform grain (flame) wrapping around the entire bowl. The generous chamber features a slightly conical drilling, designed to support optimal combustion management and ensure a consistent smoke throughout.

The accent piece connecting the shank and stem is embellished with a colored acrylic ring (olive), creating an original visual contrast. The stem, also made of acrylic and elongated in shape, adds grace and balance to the entire design, finished with a fishtail bit for a comfortable grip.
