

Radice Radice Smooth Straight Apple Pipe

Cod. Radice 2229

EUR 260,00 / taxfree 213,11

TECHNICAL SPECIFICATIONS

1. Length	133 mm / 5.24 inch
2. Bowl height	46 mm / 1.81 inch
3. Outside diameter	49 mm / 1.93 inch
4. Chamber diameter	21 mm / 0.83 inch
5. Chamber depth	36 mm / 1.42 inch

 Weight 68.90 gram / 2.43 oz

Filter	NO
Condition	New
Country	Italy
Brand	Radice
Model	Apple
Finish	Smooth
Shape	Straight
Material	Briar-root
Stem	Acrylic
Ornament	Wood
Original bag	of the manufacturer
Original box	Al Pascià

FEATURES

Handmade in Italy (made in 2025)

Free gift wrapping is included

Italian handcrafted pipe Radice - Smooth Chubby Apple

Italian handcrafted pipe made in Cucciago by brothers Marzio and Gianluca Radice, belonging to the Radice production. A medium-sized smooth pipe featuring a compact and robust Chubby construction, where the gathered proportions of the shape lend the overall piece a solid, well-defined presence.

The shape is an Apple, interpreted with soft, full lines, a flat rim, and

a bowl with compact proportions. The geometry of the model highlights the volume of the briar and yields a balanced-looking pipe, without sacrificing the distinct visual weight characteristic of Chubby shapes.

The chamber is medium capacity with cylindrical drilling, consistent with the bowl structure and the overall dimensions of the pipe.

The stem is a standard tapered type made of acrylic. A particularly distinctive detail is the small wooden ring inserted at the transition between shank and stem. Rather than interrupting the continuity of the line, this element introduces a natural material contrasting with the acrylic, creating a visually well-defined junction.

The smooth finish allows direct appreciation of the briar's surface and natural characteristics. The Chubby construction, the gathered volume of the bowl, and the sturdy proportions give the pipe a grounded, tactile design.

This Radice Chubby Apple is an example of Italian handcrafted pipe-making where simple shaping meets distinctive construction details. The flat rim, tapered acrylic stem, and especially the small wooden ring between shank and stem define an essential, recognizable composition, while the compact, robust structure represents one of the pipe's most characteristic elements.
