Valbruna Pipe – Brown Smooth 1 Jellyfish (Free Interpretation of the Prince)

This creation by **Valbruna**, handcrafted in **Simone Gaudenzi's** workshop in Gabicce Mare, offers a personal reinterpretation of the classic **Prince** shape. The piece is characterized by the harmony between the compact proportions of the bowl and the elongated stem, enhanced by the addition of a

refined detail at the shank.

General Features and Construction Details

The pipe belongs to the **Brown Smooth 1 Jellyfish** grading, distinguished by a stain that highlights the quality of the briar grain:

- **Briar Grain:** The bowl features an even flame grain running around the entire circumference, transitioning into a dense **bird's eye** pattern visible on the base.
- **Bowl:** Features a small-to-medium capacity. The combustion chamber is drilled with a slight taper toward the bottom, designed to facilitate airflow and promote an even combustion of the tobacco throughout the smoke.
- **Shank and Ferrule:** The shank terminates in a **silver olive-shaped fitting**, serving as both a structural and aesthetic transition between the wood and the stem.
- **Stem:** Made of **marbled acrylic** with an extended length, shaped to provide a balanced color contrast with the brown tone of the briar and a comfortable bite.
