Dunhill The White Spot Cumberland 5128 – Sandblasted Diplomat

The Dunhill The White Spot model 5128 is a recent English pipe produced in 2026, featuring the classic Cumberland finish and a Diplomat shape. It is a medium-sized pipe with balanced proportions and a understated profile, designed according to the traditional craftsmanship of the Dunhill manufacture.

The surface displays a gentle, uniform sandblast that discreetly highlights the wood grain without being overly pronounced. The flat rim is left smooth, creating a visual contrast with the sandblasted surface of the bowl and precisely defining its upper rim.

The Cumberland stem—in its distinctive mottled brown shade—is tapered with a standard bit. Its shape harmoniously complements the lines of the pipe, maintaining a classic, functional design.

The medium-capacity chamber features a cylindrical drilling, a traditional choice that contributes to the recognizable layout of this model. Overall, the 5128 offers a balance of compact dimensions, classic styling, and clean craftsmanship, with construction details that clearly define its identity.
