Key Features

Finish and Texture:
The bowl features a striking sandblasted finish combined with a

distinctive rustication, giving the briar a richly textured, earthy and mineral character reminiscent of the surface of volcanic rock.

Stem and Iconic Details:
The stem is made of polished black acrylic, featuring a tapered profile and a standard button, shaped to provide a comfortable bite. The iconic **silver "J"** stands prominently on the stem, serving as the hallmark and unmistakable symbol of the Ser Jacopo workshop.

Bowl Chamber:
The generously sized tobacco chamber features a slightly tapered drilling towards the bottom, a technical detail designed to promote a more concentrated draft and optimal tobacco management during the final stages of the smoke.
