Caminetto Event 2021: The Dublin-Genovese Hybrid in a Rustic Finish

The **Caminetto Event 2021** pipe was crafted in the workshop of the historic Italian brand, internationally renowned and affectionately known as *“La Pipa del Baffo”* (The Moustache Pipe). This model belongs to the prestigious **Event series**, a project launched in 2013 by Tommaso “Tommy” Ascorti — grandson of the founder Giuseppe “Peppino” Ascorti — with the aim of drawing inspiration from the company's historical heritage. Each year, the

series reinterprets a shape or design detail preserved in the archives, combining traditional elements with contemporary proportions and details.

Design and Geometry: A Semi-Bent Dublin–Genovese Hybrid Stand-Up

Crafted in **2021**, this medium-sized pipe stands out for its distinctive and well-balanced design:

- **A Blend of Dublin and Genovese Shapes:** The silhouette is an intriguing hybrid of the classic Dublin shape, with its bowl widening towards the rim, and the Genovese shape, characterised by flowing lines and a distinctive Mediterranean character.
- **Stand-Up Design:** The semi-bent profile is complemented by a small pedestal integrated into the base of the bowl. This feature allows the pipe to stand upright on its own when placed on a flat surface.
- **Rustic Finish and Smooth Rim:** The bowl is finished with deep rustication, creating a pronounced, tactile texture that feels solid and pleasant to the touch. In contrast, the top of the bowl (rim) is flat-cut and left smooth, providing a clean visual contrast with the rustic finish.

Distinctive Details: The Copper Band and Mouthpiece

The junction between the shank and mouthpiece is enhanced by metal detailing rich in historical significance:

- **Engraved Copper Band:** The shank features an elegant copper band, adorned on its upper surface with the brand's characteristic stylised moustache emblem, an unmistakable symbol of the Caminetto identity. The words *Event* and *2021* are finely engraved on the sides of the band, identifying the pipe as part of this annual edition.
- **Black Acrylic Mouthpiece:** The glossy black acrylic mouthpiece meets the copper band seamlessly and offers excellent resistance to wear and oxidation. Its fishtail bit provides a slim, stable and comfortable position between the teeth.

Bowl Geometry and Smoking Characteristics

- **Medium-Capacity Bowl:** The chamber offers a versatile internal capacity, suitable for both complex tobacco blends and everyday smoking sessions.
- **Slightly Tapered Draught Hole:** Precisely drilled, the chamber narrows slightly towards the bottom of the bowl.
