Dunhill Shell Briar 5128 Group 5 Pipe

Cod. Dunhill G184

EUR 655,00 / taxfree 536,89

TECHNICAL SPECIFICATIONS

1.	Length	150 mm / 5.91 inch
2.	Bowl height	39 mm / 1.54 inch
3.	Outside diameter	46 mm / 1.81 inch
4.	Chamber diameter	21 mm / 0.83 inch
5.	Chamber depth	30 mm / 1.18 inch
	Weight	52.40 gram / 1.85 oz
	Filter	**NO**
Condition		New
Country		United Kingdom
Brand		Dunhill
Model		Diplomat
Finish		Sandblast
Shape		Half bent
Material		Briar-root
Stem		Ebonite
Original bag		of the manufacturer
Original box		of the manufacturer

FEATURES

Made in England (made in 2026)

Free gift wrapping is included

Dunhill The White Spot Shell Briar 5128: The Timeless Elegance of the Diplomat Shape

The **Dunhill The White Spot Shell Briar 5128**, manufactured in England, represents one of the cornerstones of the British pipe-making tradition. This particular example features the timeless **Diplomat** silhouette in the iconic **Shell Briar** sandblasted finish — the first sandblasted finish introduced in the history of pipe making by Alfred Dunhill in 1917.

The result is a smoking instrument that combines aesthetic refinement, lightness and outstanding mechanical performance.

Design and Geometry: The Diplomat Shape with an Oval Shank

The model code **5128** identifies a medium-sized pipe (Group 5) with a **semi-bent profile**, distinguished by harmonious proportions and exceptionally refined construction details.

Iconic Silhouette: The Diplomat shape — often described as a slightly more compact and streamlined version of the Prince — features a low, rounded bowl that sits naturally in the palm of the hand, providing an ergonomic and well-balanced grip. A true classic of the English catalogue, it is considered a benchmark among enthusiasts of the Dunhill brand.

Oval Shank and Flat Rim: The oval-section shank gives the pipe a slender, elegant profile while visually lightening its overall appearance. The bowl is topped with a **flat rim**, a detail that precisely defines the upper contour of the bowl and facilitates tobacco loading.

Shell Briar Sandblasted Finish: The renowned deep sandblasting process highlights the natural grain patterns of the selected briar, giving the wood a dark, textured surface that is pleasant to the touch. This finish also helps promote optimal heat dissipation during smoking.

Construction Precision and Ergonomics

Medium-Capacity Tobacco Chamber: The combustion chamber offers a well-balanced volume, making the pipe versatile and suitable for both complex tobacco blends and everyday, medium-length smoking sessions.

Cylindrical Drilling: Executed with millimetric precision according to the historic standards of British pipe manufacturing, the cylindrical drilling ensures a smooth, consistent draw, free from turbulence, from the initial lighting all the way down to the bottom of the bowl.

Ebonite Mouthpiece: The shaped black ebonite mouthpiece flows seamlessly into the oval-section shank and features a **standard bit**, designed to provide a stable and comfortable position between the teeth. The unmistakable **White Spot** is prominently displayed on the upper side, serving as the historic hallmark of quality and craftsmanship of the London-based maison.

Technical Specifications

- **Brand:** Dunhill The White Spot
- **Origin:** England (British manufacture)
- **Model Code:** 5128 (Group 5 – Medium size)
- **Shape:** Diplomat (Semi-bent)
- **Finish:** Shell Briar (Black/dark brown sandblasted)

- **Structural Details:** Flat rim, oval-section shank
- **Tobacco Chamber:** Medium capacity with cylindrical drilling
- **Mouthpiece:** Black ebonite with standard bit and White Spot on the upper side
- **Type:** Classic English pipe, suitable for both collecting and smoking enjoyment
